### LAST DAY OF TARIFF HEARING. Color-Makers Want a Lighter Burder

on Their Raw Materials. WASHINGTON, Sept. 20 - To-day, the day's hearing given by the Ways and Means Committee, found representatives of the paint and color, corset, thread, carpets and lead industries be-

thread, carpets and lead industries before the committee.

J. S. Page, representing Devoe & Reynolds Company, of New York and the color-makers of the United States, spoke first. He said that the present tariff discriminated against them, as the raw materials which entered into the compound articles, were taxed beyond the finished product. To this disadvantage must be added the difference in the cost of labor here and abroad.

Mr. Page asked that in the preparation of the new bill the duty on the compound article be so adjusted that the materials of which it was made would not receive greater protection.

L. E. Holden, proprietor of the Cleveland (O.) Plaindealer, argued in opposition to any reduction in the present duties on lead ores. Free lead ores, he said, would destroy the industry in this country and deprive thousands of employment.

This City. The detention house on Ellis Island has been turned into a synagogue today, and all of the Jewish immigrants cay, and all of the Jewish immigrants are gathered there fasting and praying. Several of them were detained on the island, and yesterday 52 Russians arrived on the Darmstadt from Bremen. Most of those remained on the island, as the orthodox Hebrew does no travelling on Yom Kippur, or the Day of Atonement.

A rabbi from this city went there this morning and led the faithful in prayer. The immigrants took from their scanty bagsage the white cloth which every Jew is obliged to carry and placed it oved his body.

After sunset to-night many of them will come to the city. Before leaving all will be given a rich dinner, sont over from this city.

"We have news of safe arrival of the Alvo."

An American who has travelled extensively in South America said this afternoon that he was inclined to doubt that any one in Mompox had heard from the Alvo or her passengers.

"Mompox is a day and a half up the Magdalena River from Barranquilla." It any word of the Alvo had been received in Colombia it would be first known in Barranquilla, which is the scaper for Mampox and the Magdalena country. It would be practically imposible for news of the Alvo to get to Mompox without first being known to the vessel's agents in Barranquilla. I am very much afraid that the cablegram brings no news of the Alvo."
